GUEST NAME _____

Boat Handover
<ul style="list-style-type: none"> We have watched and understood the video of the handover process
<ul style="list-style-type: none"> We understand how to turn on the inverter for 240v and have been made aware that this must be turned off overnight or when we are not on the boat to preserve battery power on board. The engine must be run for a minimum 2hrs a day to maintain battery levels.
<ul style="list-style-type: none"> We know where the electric fuse switches are & these must be left turned on. We understand if something doesn't work electrically, this is where we can check to see it's turned on.
<ul style="list-style-type: none"> We know where the central heating switch is located & understand it must run for a minimum of 2 hours and a maximum of 4 hours. We understand it must not be left on overnight or if we are not on the boat and must be turned off.
<ul style="list-style-type: none"> We have been shown how to operate the TVs onboard and understand that they may not always receive a signal. We understand that the TVs work using Freeview and Amazon firesticks and the inverter must be turned on for the Wifi and TVs to work.
<ul style="list-style-type: none"> We have been shown how to make up the dinette as a bed & know where the bedding is located for the dinette bed.
<ul style="list-style-type: none"> We have been shown how to correctly use the toilet(s) on board and understand if we block the toilet/overflow the cassettes there is a charge taken from the security deposit.
<ul style="list-style-type: none"> For holidays of a week or longer, we understand we will need to do a pump out & have been shown how to do this and where the pump out places are located.
<ul style="list-style-type: none"> We understand how to operate the shower and understand the shower pump switch must be turned on when using the shower & turned off afterwards.

- We understand that when lighting the cooker, the gas setting must be at the halfway mark otherwise it won't light.

- We understand how to use the fuel burner correctly. We are aware there is an option to purchase a fuel burner pack (includes fuel materials & cleaning at end of stay) or if we decide to bring our own fuel materials, we are responsible for cleaning the fuel burner at the end of our stay.

- We understand that the water tank will need to be re-filled at regular intervals (every 2 days) during the holiday and have been made aware of where the water points along the river are and how to re-fill the tank.

- In boat Geanna, we understand that the engine must run whilst the dishwasher is running or the batteries will be depleted.

- In Boat Geanna, we understand how to change the toilet cassettes & will not allow the cassettes to over fill. We will empty full cassettes at local Elsan waste disposal points located at certain locks.

- If there is any problem with the boat, we will notify Myrivercruising immediately.

- In the event of an accident afloat or near misses, we will not admit any liability and will take details of any other parties /vessels involved, names of witnesses & will notify myrivercruising immediately.

- We will ensure we pay for all moorings (where a fee applies) & will not moor at any prohibited places or on private land. We understand we are liable for all mooring ticket penalty fines.
